Reference: West Lynn Sewer Separation – Design Document Submittal

Third Modified Consent Decree Civil Action No. 76-cv-02184-RGS

Dear Kevin,

On behalf of the Lynn Water and Sewer Commission, Stantec is proud to submit Design Documents for the multi-phased West Lynn Sewer Separation project in accordance with the implementation schedule identified in the *West Lynn Sewer Separation – Final Preliminary Design Report* dated July 20, 2018 (PDR) and the requirements of the Third Modified Consent Decree (referenced above).

As outlined in the PDR and reviewed with Massachusetts Department of Environmental Protection (MassDEP) staff at our July 9, 2019 meeting, these documents include bid-ready 100% design drawings and specifications for Phase 1, and 60% design drawings and specification tables of contents for Phases 2, 3, 4 & 5 of the project. The OPCC has been advanced to reflect the current scope of work proposed under each phase.

Please contact us with any questions. We look forward to receiving comments from and continuing our work with MassDEP to complete this very important project.

Regards,

Stantec Consulting Services Inc.
